Daring Lips

High-impact lip colors signal the arrival of *otoño* like nothing else. Whether you do *como las modelos* at Nanette Lepore, above, and swipe on a purple shade, or try a vivid red, as at Dolce & Gabbana, left, you're going to be a standout. And who knew vampy lips, seen at Giles, bottom, could look so darn pretty? Remember: Bold colors will draw attention to dry, chapped lips. To pull off this intensity, try a sugar scrub once a week—no cracks or creases here!
